Ref: Wishing Mrs Darshana Dabke the very best for her onward journey

Dear Parents:

Mrs Dabke has shared the news of her daughter's admission to a top ranked University to pursue her Master's degree program and given it involves a relocation from her place of residence which is Mumbai to an unfamiliar city, Mrs Dabke has requested for a leave of absence and expressed her unavailability to continue with the SVM team for the next academic year 2020-21 as she settles her daughter.

We wholeheartedly support this decision and we are confident you will join us in wishing her the very best.

Mrs Dabke's commitment to SVM continues in the future as a well wisher, and she has extended her support to Mrs Jaiswal who joins us shortly as Head of School from Nursery to Grade 8. Mrs Agarkar, our consultant from Mumbai will work with Mrs Jaiswal and engage with teachers, students and parents throughout the year across pre-primary years, primary and middle school.

Grade wise Academic Orientations that will be scheduled for the new academic year 2020-21 (we shall share details with you shortly), enable us to share academic milestones - syllabus, time-table, rationale for assessments, etc for the year ahead and give you a chance to interact with all the leaders - Mrs Monica Jaiswal, appointed Principal for SVM and Mrs Fatema Agarkar along with the team of teachers.

Mrs Dabke's last working date will be March 31st, 2020 as she hands over the responsibility to Mrs Monica Jaiswal, and behind the scenes we have been working throughout March and will continue in a virtual way through April as well to ensure this seamless transition.

We thank you in advance for your cooperation and support as always, and look forward to working closely with your families in a virtual way, in the weeks to follow and 'physically' soon throughout the new academic year 2020-21.

We shall officially, also communicate the start dates for the next academic year post a consultation with officials. Thank you for your patience!

Stay safe!

Yours truly,

The Management  
SVM
