C 21 (2019-20)

To,

Whole School Parents (Grade Nursery Ekam- Grade 7 Ekam)

Dear Parents:

Greetings!

Dear Parents:

Today, as we mark the end of our second month in school, and the first month after the summer break. If yesterday's Grade 1 to 4 Language (Vocabulary) Quiz was any indication, our children are ready to take their learning to the next level and are enjoying the different strategies we have planned for them - from classroom learning to debates, projects and Quiz time, honing important life skills, especially communication.

This month in particular has been a nostalgic one for us as we celebrated our first "birthday" as a new school. With over 200 students now, the family is growing and our new additions be it students and teachers have established a wonderful rapport with each other. We continue to build on this foundation and look forward to welcoming more like-minded families to our world of learning.

Multitude, our Assembly Time as a whole school has been initiated once again this month with Grade 5 taking a lead followed by Grade 4 paving way for the other grades in the months to follow. Assembly Time is a way for us to connect as a whole school and share inspirational ideas, peer learning and once again giving children an opportunity to express themselves and their ideas.

From PTA Elections to Rainbow Day celebrations for Early Years, the month has been action packed as we settled the children back into a routine and commenced our academic plans. Grade 7 parents were also taken through a Road Map plan for their students given this will be our first graduating batch - 2023. The presentation detailed CBSE Grade 10 targets and what we as a team have planned for them from Grade 7 to 10 to ensure that our children not only take these examinations confidently and independently but also develop key life skills of critical thinking, logic and reasoning.

Chai Pe Charcha continues as usual, giving us an opportunity to share face to face with the developments and “WOW” moments we have in school with parents and also a platform for parents to share their feedback so that we can incorporate suggestions and deliver the best program for our children.

The in-service professional development workshops continue for teachers which is critical given that learning never ceases and we constantly strive to bring in best practices.

Our academic partners in Mumbai, the KA team were in school and have engaged with teachers and students and shared how visible the progress has been from Year One. The feedback has been hugely motivating for the team given their expertise of setting up close to 30 institutes pan India and working with so many national and international teams.

On that positive note, we sign off, excited for July and all preparation ahead as our children taken on their first periodic tests for the academic 2019-20.

Wishing you a wonderful weekend ahead,

Yours truly,

Darshana Dabke
