

The SVM Bridging Programme

Date: _____

Dear Parent,

Greetings!

Some students arriving at a new school face challenges of ‘fitting in ‘to a new environment with different academic levels and perhaps a medium of instruction different from the language to which the student is accustomed.

A bridging programme for students is developed to address these challenges as students adapt to a new campus and develop and acquire the necessary knowledge and skills. The SVM Bridging Programme is a specially designed comprehensive program of academic support, created by the SVM Faculty to prepare the learners for the forthcoming exams.

This Programme is implemented to reiterate the concepts that need attention.

We are providing this program as a tool to help your child practice skills and concepts that are essential for his/her academic development.

We will be conducting bridging program for _____ in Sub: _____

commencing from _____ for a few days during the school hours.

Please note: It is important that your child continues practicing the exercises done in the bridging sessions.

Thank you

Team SVM
