To

Whole School Parents

Ref: Academics @SVM

Dear Parents:

As we hear news of educational institutes continuing to be under lock-down for April and perhaps being extended to May, we hope our decision to declare an early summer break was a timely decision to ensure that we transition from one grade to another seamlessly; from one academic year to another year with ease.

Our action plan for April includes:

1. Connecting with all class representatives (mothers appointed) and understanding their feedback about the time away from school. This ensures that we are able to reach out to all parents should they require assistance in any form
2. Professional Development workshops for teachers conducted virtually including soft skills with ACE and other workshop facilitators across the globe
3. Fine-tuning and planning curriculum frameworks for the start of the academic year 2020-21
4. Zoom connects with teacher-students being initiated (teachers miss the students and also want to ensure that they are able to motivate children to complete tasks sent home)
5. Certification and skilling for virtual classrooms - teachers undergoing programs to upgrade their skills with the latest available for virtual teaching to be ready for the future
6. Summer Enrichment Packs to keep students engaged at home
7. Sharing e-resources for teaching and learning daily to be used at home, covering all subject matter

Please do follow us on social media as there are many timely updates we share with the community at large!

As always, we look forward to your feedback or queries, to enable us to guide and orient you for any of the above, and therefore do send us emails or messages at any stage.

Our teachers cannot wait to be back in the physical world with the children, and we look forward to the start on May 21th, 2020.

Be assured, all teaching and learning milestones and targets have been factored in, and your children will not miss out on the academic targets. For now, enjoy their presence at home and also play your part in being responsive citizens of the country by staying at home, and allowing your children to build on their life skills. This time will pass, but these memories will last forever and therefore it is important that we make this as comfortable a journey as possible.

Yours truly,

Monica Jaiswal

Principal
