**Ref: Fee Structure for AY 2020-21**

Dear Parents,

The Management has taken a decision in the interest of our parent community and the pandemic crisis we are facing that the fee structure declared for 2020-21 will remain unchanged from 2019-20 i.e. no increments as proposed in March 2020.

For those parents who have completed their fee payment formality with the new fee structure (for old parents' increment was applicable; new parents enrolled with the new fee structure), we will reimburse/adjust with the next set of instalments payable to school, and follow the fee structure of 2019-20 only for all instalment payments this year.

Just to remind you that we had communicated to all parents that the fee structure would follow an increment every two years at the time of admission inquiry and registration and declared the same in March 2020 for the academic year 2020-21 but the Management has decided to waive off the increment applicable and follow the fee structure of the previous year only. Please do be informed, however, the increment for 2021-22 will be 12 percent. We shall communicate this in person once school re-opens for you to have complete clarity.

Looking forward to working with your families till then stay safe and stay home!

Yours truly,

Monica Jaiswal
