

C 09 (2021-22)

To,
School Parents (Grade 3 to 9),

Reference: Formation of Clubs for Academic Session 21-22.

Dear Parents,

The Clubs at Sarvankash Vidya Mandir... what are we all about?

1. The Naturo Path Club / Nature Club

We take on the responsibility to nurture the natural surroundings we live in by creating awareness amongst the masses. Nature is a provider and protector, we at the Naturo Path Club seek to address various environmental problems at the same time conduct activities, doing our bit to save nature. It is also our goal to motivate citizens to develop an attitude of conservation and preservation of nature and her many gifts to mankind.

2. The Model United Nations Club

Are you interested in global issues, do you want to be a world leader? If so, the Model United Nations Club is the one for you. We, at the MUN Club discuss real world issues and policies with a view to creating solutions for the same. Imagine yourself as a high-level delegate debating across the table with a formidable opposition. This could well be preparation for the future you, who knows... a future UN Ambassador or a Foreign Affairs minister.

3. The Culinary Club

Aah! What's that aroma mom, is it my favourite "gaajar ka halwa?" Every human being has some fascination for food, after all, a meal every once in a while is a must. At the Culinary Club, the focus is on the goodness of fruits, vegetables, herbs, spices etcetera and the preparation of various dishes. We invite our learners to try out our wares. We strongly believe that the ability to cook or make food for oneself can be a major contributing life-skill. Join us for a world of fun with food.

4. The Mass Media and Communications Club

For those with an inclination towards languages, eager to pick up the nuances of reading, writing and communicating, this is the club for you. At the MMCC, we encourage the use of all languages taught in school namely; Hindi, Marathi, English and the latest addition, Spanish. Accentuate your communication skills through the various activities held in our sessions. Moreover, the scope of the MMCC is heightened due to the handing down of journalistic and editorial responsibilities with regards to school newsletters and magazines.
