**Reference: Field Trip: A Day with the Doctor**

Dear Parents,

We are excited to announce that we have planned a field trip for our students to visit a doctor's clinic. At SVM, we believe that learning outside the classroom can enhance critical thinking skills and provide an opportunity for students to gain a new perspective on concepts.

The purpose of this visit is to help our students understand the important role that doctors play in society. By observing a doctor in action, our students will learn about the various medical instruments and equipment that are used in the field of medicine.

The visit is scheduled for **October 6th, 2023**, within school hours. We will be visiting **Dr. Gangan's Clinic**, where students will have an opportunity to interact with a practising doctor and learn about their daily routines. We recommend that students wear comfortable clothing and bring a handkerchief.

We hope that this visit will provide our students with an enriching learning experience outside the classroom and offer them a glimpse into the world of medicine.

Thank you for your support.

**Yours Truly**

**Monica Jaiswal**
