Message From Trustees

Every child matters!"

The generations before including ours – we belonged to an era where we were tested more for our memory. We were rarely encouraged to think on our own, apply our mind or come up with solutions to the problems whether right or wrong. There was one answer, and we were asked to accept it. But the world has changed. In fact the world is witnessing swift transformations in social and technological horizons which simply means children need an education beyond the textbook, yet allowing for their quest for learning and knowledge. We have to do more. **Be more!**

And how do we do that?

For starters, we allow them to think, we expose them to situations that enable them to make decisions, learn from mistakes and improvise so that they become decision makers and problem solvers who can think on their feet as per the demands of the situation. We teach them by inspiring them, we teach them to think out of the box. We give them freedom and nurture them well at the same time.

We also need to recognise that every child is

different and will learn differently with different abilities. It is time we cater to these needs.

It is also important that our children get an opportunity to discover their various talents. Be it sports, drama, Music, literature all accessible in one environment where opportunities are provided under one roof, to allow children the freedom to choose, yet learn effectively and holistically.

And that's our inspiration for children in Ratnagiri with Sarvankash Vidya Mandir, for Sarvankash means holistic.

"We at Sarvankash Vidya Mandir will provide a conducive environment and an opportunity to our children to grow and Be More than just an academic student. We hope to bring the best in class teachers and teaching techniques to the school. We are building world class infrastructure complete with badminton hall, tennis courts, and a large field for sporting activities. An amphitheatre for performing arts and a musical performances."

We hope to see all our students reach greatest heights in their lives and help build an educated enlightened and empowered citizens.

Mr. Arjun Gadre

Mr. Deepak Gadre

Mrs. Meena Gadre

Principal's Message

Dear Parents and Learners,

Welcome to the world of SVM, a place where every child has an opportunity to explore, grow, flourish and Be more in her or his individual capacity. Educational institutions no more needs to be seen as examination centres preparing children only to excel on paper through their Report cards. John Dewey rightly said, "If we teach today's students as we taught yesterday's, we rob them of tomorrow."

Education in India now after 34 years has undergone a paradigm shift by the advent of National Education Policy 2020 which brings education closer to real life, an education system that is skill based, need based and future based.

In this fast changing technical world on one side where we need to prepare children for careers which involves them to be at ease in the domain of AI (Artificial Intelligence) and the other new upskilled opportunities, we also have to be vary of the fact that on the hind sight human values and ethics are just irreplaceable and needs to be ingrained and imbibed from the very beginning of education both at home and school as the root of Indian ethos.

This clearly indicates the need of schools which are progressive in their philosophy, which run on the futuristic approach and I feel glad to share that Sarvankash Vidya Mandir is one such institution with a very dedicated team of passionate and competent facilitators who are ever ready and committed towards bringing in a positive shift and carrying forward the progression graph of each and every learner a notch above.

At the end I would say that there is nothing better than self-experience hence I would love to see all my learners getting the first-hand experience so that they can strive for excellence and thus make their learning journey a happy one, meaningful and memorable at SVM.

Best Wishes Always,

Mrs. Monica Jaiswal

Principal

DREAM
becomes a **GOAL**
A goal broken down into
steps becomes a **PLAN**
It's not limited by Action,
becomes **REALITY**

The biggest solution is simple - don't waste a lot of time and money pushing you in directions they don't want to go. Instead, find out what interests they have, and encourage them to do that. Then get out of the way.

"Only children believe they're capable of everything."

If you want to do something nice for a child, Give them an environment where they can touch things as much as they want.

- Beekminster Fuller

Student Council

Mst. Aditya Sawant

Head Boy

My school plays an important role in developing my abilities as a leader. I have been guided to be confident, organized, and responsible. This exposure has helped me develop my overall personality. I thank my school for giving me this opportunity.

Ms. Maitreyee Bhurke

Head Girl

SVM is my dream school. My school has given me a lot of support and has encouraged me always to become versatile. As a leader, I am taught to be responsible, caring and humble. This opportunity has helped me discover my skills. Thank you SVM

What Our Parents Say...

Sarvankash Vidya Mandir has a great team of friendly, dedicated and experienced educators who have provided my children with a nurturing and conducive environment to learn.

We feel that the warm, caring ethos of the school suits our children's personalities and help bring out the best in them.

I commend the efforts put in by the teachers in giving timely and valuable feedback that is quintessential for all-round development of the children.

The School has grown from strength to strength, by the passing each year.

Kudos to the school management and the teachers for their support always.

- Harsha Pravin Jain

Proud to be associated with SVM....

I am a very satisfied parent regarding my daughter's education in SVM..

SVM teachers have proven to the school's moto to **BE MORE**.

In this pandemic situation the school has been helpful to the students in the curriculum.

Following the time table, sending recorded Google Meets. Taking extra care of the weaker students.

Overall True to their Vision.

- Snehal Lubri

My son Yadnik Abhishek Indulkar is studying in Junior KG. He is enjoying studies and we are also satisfied with the method and overall study process.

Special thanks for online sessions being conducted during this difficult time. Teachers are really working hard.

Thank you so much SVM team.

- Akshata Baraskar - Indulkar

Vision

We believe that every child has an innate that needs to be nurtured. As a school we value the responsibility to nurture, develop skills and learning that will enable the child to cope with higher education in India, or abroad if they do desire.

Learning must be relevant, age appropriate, allowing for children to think and create, a vision endorsed by our late President Abdul Kalamji.

Be More – our goal for the children defines how we strive hard to create opportunities for children to excel and achieve in what they desire or aspire to become.

Mission

To enable learners to acquire 21st century skills, to be able to thrive in the future, representing themselves as Global citizens with Local know how.

Academic Features

Foundation Stage (Early Years)

Age 3 to 8 (Grades Nursery to II)

Focus on Physical, Mental, Social and Emotional Growth

Learning Areas To Focus On:

- 🌟 Fine motor, gross motor and sensory motor development.
- 🌟 Early language development.
- 🌟 Early Math development.
- 🌟 Thematic and integrated approach.
- 🌟 Joyful learning methods.
- 🌟 Social and emotional development .
- 🌟 Continuous and ongoing assessment based on age appropriate learning outcomes.
- 🌟 Field trips and educational excursions.

Preparatory Stage

(Primary Years) (Age 8 to 11)

(Grades III to V)

Learning Areas To Focus On:

- 🌈 Language literacy and fluency.
- 🌈 Numeracy skills through concrete experiences.
- 🌈 Environmental Science through experiential; project based learning.
- 🌈 Personal goal setting.
- 🌈 Formative and Summative Assessment.
- 🌈 Life skill and value education.
- 🌈 Blended learning.
- 🌈 Field trips and educational excursions.
- 🌈 Integrated learning approach.
- 🌈 Third language approach.
- 🌈 Specialized IT Curriculum.

Middle Stage: (Age 11 to 14) (Grades VI to VIII)

The Middle Stage will have:

- ✿ Skill based education through experiential learning.
- ✿ Blended learning.
- ✿ Exposure to various prestigious events like MUN.
- ✿ 360 degree assessment.
- ✿ Developing leadership skills.
- ✿ Mentoring program for life skills.
- ✿ Internships.
- ✿ Field trips and educational excursions.
- ✿ Personal goal setting.
- ✿ Design and thinking lab.
- ✿ Third language approach.

Secondary Stage (Age 14 to 18) (Grades IX and X, XI and XII)

Learning Areas To Focus On:

- 🌈 Focus on board exams.
- 🌈 Core faculties/subject expertise.
- 🌈 Career guidance.
- 🌈 Internships and specialization.
- 🌈 Research, case studies and stimulations.
- 🌈 360 degree assessment.
- 🌈 Guest lectures by experts.
- 🌈 Field trips and educational excursions.
- 🌈 Personal goal setting.
- 🌈 Developing entrepreneur skills.
- 🌈 Design and thinking lab.

CBSE - About the Board

SVM is a proposed K-12 CBSE school with 21st century learning! Affiliated to a time-tested and India's Number 1 Academic Board has its advantages. CBSE is one of the oldest and largest boards in India with over 15000 schools across India delivering the curriculum. It is widely accepted and recognized by national and international colleges and universities in India and overseas.

Our curriculum while mapped to the CBSE learning milestones will also incorporate the best practices in India and globally to ensure that the vision of the school which is to '**Be More**', also can be academically defined. It is the vision of the Trustees, that students of SVM find their rightful place in any College/University and compete with the rest of the students on a equal footing simply because they received an academically rich foundation with global perspectives.

AJIT AGARKAR, *Founder*

FATEMA AGARKAR, *Founder*

Agarkar Centre of Excellence (ACE)

The Management at SVM is delighted to have on board Agarkar Centre of Excellence (ACE), a Mumbai-based education and sports management services company. ACE is a unique blend of education and sports curriculum in schools and this blend roots from two significant personalities being the institute's founders, Ajit Agarkar – a celebrated sportsman who has represented India in 4 world cups including the inaugural T20 and played all formats of the game for the country, and his wife Fatema Agarkar – an award winning educationalist, who has set up close to 40 educational institutes including pre-schools, high schools (national and international) and a school for special needs', pan India.

ACE as the 21st century educational house focuses on research & development, and making content relevant be it through sports integration or education. The team uses 21st century teaching-learning effectively combining global approach with core Indian values to ensure children who are nurtured by teachers are 'future-ready'. Their USP lies in its innovation and research and development for curriculum design and differentiation in a classroom allowing each child to be nurtured as per his or her needs and encouraging them to independently assign goals for themselves.

ACE's child-centric approach has been appreciated by parents, teachers and children including managements of schools, pan India and its presence in over 30 cities working across academic boards brings a rich diversity of experience and expertise to SVM. As educators, the endeavour is to create foundations for students to forever remain lifelong learners and happy students.

Team ACE have been invited to associate with SVM with the intention of bringing the best practices adopted in the field of education and sport, ensuring that the vision of SVM is fulfilled.

Our Associations

Theater Professionals

Mumbai based, Theater Professionals is a pan India theater arts brand in the country founded by two prominent theatre artists, Jehan Maneckshaw and Tasneem Fatehi who are part of the Guild in UK.

The Young People's Theater Programme (YPTP) that SVM will be associated with will enrich the language capabilities of the learners building on their confidence, allow all class teachers to use "drama" as an approach to deliver curriculum content and making learning therefore an integrated process.

At the core of the YPTP is the belief that drama provides experiences that embody learning- learning that stays with you for life.

India on Track

Prakash Padukone Badminton Schools applies a global curriculum which focuses on foundational and advanced training modules. These modules apply knowledge of principles, strategies, and tactics related to movement and performance, critical to the sport.

India On Track is committed to identifying and nurturing talent in every corner of India and we will do this through grassroots and specialized training programmes, Centres of Excellence and talent scouting camps. IOT is determined to provide the right platform to help young achievers on their way.

Our Teachers

Teachers remain the backbone of any school and we value their contribution immensely. As it is widely accepted, teachers, to remain effective will need "skilling" from time to time and we at SVM attach a lot of importance to the process of selection, where teachers from Ratnagiri as well as other cities will be evaluated and thereafter trained through various workshops to make sure our students receive the best education available using methods of the modern world through their teachers.

Teachers at SVM keep the students and their needs first. Every child is given special attention and taught according to their strengths and weaknesses. They want to give them knowledge and experiences that will help the children succeed in the world beyond school. Our teachers want to shape the lives and futures of your kids perfectly.
